### **EXAMINER'S AMENDMENT**

1. The elected species of claim 2 is directed to an allowable product. The remaining species have been examined. Claims 4, 8, 9, 19, 21-23, 25 and 29 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in the Office action mailed on July 12, 2002 is hereby withdrawn.

2. The following is an examiner's statement of reasons for allowance: The broadest claim is drawn to one of four different mutations in SEQ ID NO: 8, a substitution of leucine 52, histidine 204, methionine 289 or threonine 306. The prior art of Blain and Arakawa, which teach mutations in the MMLV reverse transcriptase gene, do not teach the specific substitutions being claimed in SEQ ID NO: 8. The claims are novel and unobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey Fredman whose telephone number is (571)272-0742. The examiner can normally be reached on 6:30-3:00.
